Dear Curtis:

Attached for your review is an electronic copy of the Technical Memorandum (Rev0) presenting the results of the July 2010 trench and used oil tank test pit excavations, and results of the December 2010 groundwater sampling event for the Bond & Bond/NAV 046 site in Shiprock, New Mexico. The report was prepared by Bristol Environmental Remediation Services, LLC (Bristol).

Upon your direction, I will send an electronic copy of the report to the Navajo Nation Environmental Protection Agency for review and comment. The final report will be submitted to EPA on CD and to the Navajo Nation EPA on CD and hard copy.

Please call me if you have any questions.

Sincerely,
